2019

68.46

Pimpri Chinchwad College of Engineering, Pune

Third year

Bachelor of Engineering

Skills

Problem Solving abilities

Teamwork

Work ethic

Time management

Quick learner

Projects

Fruit Spoilage Detector

The concept of project dealt measurement of certain fruits and display the result on LCD screen

Reflush and Reusable Toilet water system

The conclusion of this project is to conserve water. As the toilet water system is a closed loop system and works well based on feedback obtained by sensors and drives actuators so there is no continuous use of power so it is a power efficient system.
